

Church Langley Community Hall, update.

We would like to keep all our users informed of the current position of the Hall.

As with most people we have struggled this year due to everything that has been going on. Our future at one point looked very bleak with finances quickly draining away with running costs, and Government directives making it very difficult to operate.

I am now pleased to report that despite these problems we are in a much better place financially, with help from people who wish to remain anonymous. Our future is looking very good indeed. Many of our regular users are keen to restart their various activities which added to the promised vaccine and improved Covid testing makes us feel confident of being able to begin taking bookings for weddings and parties in the new year. We also have some slots available for any new regular users looking for a local venue. We can offer a safe space that complies with all Government Directives.

We must all think of the new year as a new beginning, please have a good one.

Alan Flowers (Chair C.L.C.A.)
